

FREE FLOW

**Nipple, nozzle & pad
cleaner that's safe
to use with
birds in the house.**

Free Flow softens and removes mineral deposits, prevents deposition of scale, inhibits corrosion, and reduces bacterial attachment slime. It's safe for drinking water, effective in fogging systems, and excellent for removing mineral deposits from cool cell pads. And a little goes a long way – one gallon of **Free Flow** concentrate will treat 32,000 gallons of drinking water.
