IMPACT-P(NA)

“THE LITTER VACCINE”

HEALTHIER LITTER FOR HEALTHIER BIRDS

NET WEIGHT 20 POUNDS

EASY TO USE

- Activates in response to increasing moisture and manure. Re-establishes healthy microbial populations. Composting helps reduce ammonia throughout an entire growout.

DIRECTIONS FOR USE

- Apply minimum one lb. per 1,000 sq. feet covering the entire floor area. Better results can be achieved using more P(NA). Apply at least 24 hours after disinfectants and biosecurity chemicals have been used. Wait a minimum of 5-7 days to apply after applying acid ammonia reducers. Compatible with beetle products. Safe to apply at any time during a growout.
